Topic(1): **Public Services Delivery System – Its weaknesses and suggestions for Improvement**

In spite a decade of impressive economic growth policy makers in India admit that this growth has not been inclusive and shared by a vast majority of society. The inability to provide a high quality of basic public services for all citizens seems to be at the root of this non-inclusiveness. The effective provisioning as well as access to basic public services are not only ends in themselves but also play a critical role in enhancing individual capabilities to equitably participate in the growth process.
